

Photon Control Named One of British Columbia's Top 100 Fastest Growing Companies for the 2nd Year Running

Burnaby, B.C., November 6, 2012 ~ Photon Control Inc. ("Photon Control") (TSX-V: PHO), a leading developer of innovative measurement technologies, is pleased to announce they have been listed on Business in Vancouver's list of B.C.'s 100 fastest growing companies for the 2nd year and has moved from the 82nd spot to 78th.

Business in Vancouver's list of B.C.'s 100 fastest growing companies is one of the newspaper's signature annual features. It recognizes companies in the province with the greatest percentage change in revenue over the past five fiscal years. Companies on the list represent a wide range of B.C.'s business community, everything from technology startups and service businesses to the largest mining and resource companies in the country. Since 1994, the list has provided an overview of the economy's key growth sectors. It also provides readers with insights about what it takes to build a business in good times and bad.

Photon Control's President Christopher Weston says, "I am proud to see Photon Control on B.C.'s Top 100 Fastest Growing Companies for the 2nd year, especially with the economic challenges all businesses are facing today. Our Company's success is due to the excellent team we have here at Photon Control."

Photon Control is a worldwide leader in measurement technologies, providing custom reliable solutions in various industries where precision is needed most. For more information about Photon Control visit www.photon-control.com
