

Photon Control Named One of British Columbia's Top 100 Most Profitable Companies

Burnaby, B.C., December 3, 2013 ~ Photon Control Inc. ("Photon Control") (TSX-V: PHO), a leading developer of precision measurement solutions, is pleased to announce they have been listed on Business in Vancouver's list of B.C.'s 100 most profitable companies for the first time achieving the 94th spot. Photon Control also reached the 20th spot on the Top 50 B.C. Companies with the highest profit margin.

Photon Control's President Christopher Weston says, "I am proud to see Photon Control on B.C.'s Top 100 Profitable and on the Top 50 B.C. Companies with the highest profit margin. These accolades highlight our team's commitment and technical expertise to build a strong product portfolio with repeated customer satisfaction. We look forward to continuing to grow the Photon Control brand and market presence."

Business in Vancouver's list of B.C.'s 100 most profitable companies is one of the newspaper's signature annual features. Companies on the list represent a wide range of B.C.'s business community, everything from technology startups and service businesses to the largest mining and resource companies in the country. Since 1994, the list has provided an overview of the economy's key growth sectors. It also provides readers with insights about what it takes to build a business in good times and bad.

"Business in Vancouver is using the net earnings and total comprehensive income category in generating their listing."

Photon Control is a world leader in optical sensing technology for the semiconductor, oil & gas, power, and life science industries. Photon Control works closely with their customers to define specifications, review designs and develop technologies to solve their measurement challenges. Photon Control delivers solutions that achieve optimum performance and reliability at the lowest overall cost. For more information about Photon Control visit www.photon-control.com
