

## Photon Control to Unveil the PalmSense<sup>2</sup> at Photonics West 2014

Burnaby, B.C., January 23, 2014 ~ **Photon Control Inc.** ("Photon Control") (TSX-V: PHO), a leading developer of precision measurement solutions, is pleased to announce the unveiling of the **PalmSense<sup>2</sup>** at **Photonics West 2014**, in San Francisco February 4-6, 2014.

The **PalmSense<sup>2</sup>** is the next generation of portable, handheld fiber optic temperature measurement systems from Photon Control Inc. The **PalmSense<sup>2</sup>** is perfect for measurement in high temperature RF environments or EMI applications in labs and field service. The **PalmSense<sup>2</sup>** is perfect where mobility is important, giving the freedom to move around critical sensing points with the system's 24 hour battery life in continuous use. Recharge the **PalmSense<sup>2</sup>** via USB connection and easily download externally via USB 2.0 from the systems 4MB internal memory.

The **PalmSense<sup>2</sup>** Features a wide temperature range 0 to +450 °C, high accuracy of +/- 0.05 °C,(probe dependent) and resolution of +/- 0.01 °C. The **PalmSense<sup>2</sup>** can be paired with both contact and immersion temperature measurement probes, packaged in a handheld light-weight design with a large 160 x 240 pixels LCD display. The **PalmSense<sup>2</sup>** is the perfect fit for Research and Life Science applications along with EMI, RF, X-ray, microwave and harsh chemical environments.

**Photon Control Inc.** will be demonstrating the **PalmSense<sup>2</sup>** at **Photonics West 2014**, at booth #4511 located in the Canadian Pavilion.

For more information about Photon Control's **PalmSense<sup>2</sup>** and upcoming tradeshow schedule, please visit [www.Photon-Control.com](http://www.Photon-Control.com) or email [info@photon-control.com](mailto:info@photon-control.com)

### **About Photon Control Inc.**

Photon Control Inc. designs, manufactures and distributes a wide range of optical sensors & instruments to measure temperature, pressure, position, and flow. These products are used by original equipment manufacturers (OEM) as well as end-users in the Semiconductor, Oil and Gas, Power, Life Science, and Manufacturing industries. Photon Control's products provide high accuracy and reliability in extreme conditions and are supported by a team of experts that offer onsite installation, training, and support. Photon Control Inc. also provides engineering services for customized optical measurement systems. Headquartered in an ISO 9001:2008 manufacturing facility in Burnaby, BC, Photon Control Inc. is listed on the TSX Venture Exchange, trading under the symbol "PHO". Additional information about the company can be found at [www.photon-control.com/investorrelations.html](http://www.photon-control.com/investorrelations.html)
